Dear Supporters,

My name is Chris Gill, I am the founder of Lone Star Warriors Outdoors. I thank you for your interest in helping our Wounded Warriors but understand you need a little more information about this organization. First, we are a recognized 501 (c) 3. I started this program because I am a retired combat veteran. I was injured in Afghanistan in 2005 and understand what these guys go through as I still deal with issues from the war. Programs like this one are a little different than most. Our hunts consist of 3-5 Wounded Warriors and that is done for a reason. With two individuals it is sometimes hard to get personalities to match, with six, they tend to break into small groups. By taking three to five at a time, they pretty much all stay together and talk. That may sound like it is insignificant, but with PTSD the ONLY way to get over it is to talk. Many of us did things in war that had to be done, but things that we cannot and do not want to talk to our families about. The unfortunate numbers show 22 veterans a day are taking their life and most of that is due to what happened over seas. So although we are hunting and having a great time doing it, my primary goal for these trips are to allow the guys to talk with people that understand what they have been through while at the same time, getting out and enjoying the American tradition of hunting. We call it gun therapy.

Lone Star Warriors Outdoors is run by a 5 man (all veteran) board and none of us receive pay. Additionally we are banned from hunting when our warriors are hunting and can take no free hunts from these locations. Once a Wounded Warrior gets a hunt, that is his last hunt for that species, unless (1) they do not harvest an animal mainly because they did not see one, (2) I have an open spot and have exhausted every possibility of getting someone new. This eliminates the same people going on the same hunts. Our goal in the coming years is to get to the point where we are able to purchase a hunting rifle, or shotgun for bird hunting for each guy that comes through our program, but that can only be done with your generous donation.

By donating to Lone Star Warriors Outdoors you are allowing these guys not only to hunt, but to talk with guys that have been in the same situation, learning ways to deal with the horrors of war. This year Lone Star Warriors Outdoors plans to take over 50 guys on hunting trips, from whitetail to hogs, to varmint to off shore fishing. For the most part we have the locations, we just need the funds to accomplish this mission for the guys that have given so much for our freedom.

I encourage you to visit our website for more detailed information as well as a listing of all our hunts.

We have a great year lined up for the guys and hope that we can count on your support to make it

A handwritten signature in black ink that reads "Chris Gill".

better.

Chris Gill
